**THE CAMPAIGN FOR WOOL**  
Patron: HRH The Prince of Wales

Come inside... its warm and its comfortable. Yes, please take off your shoes - if just to feel that fabulous floor... its barefoot heaven here in this wool haven!

So, what I can tell you about this bold and beautiful space? We have used real wool, grown on sheep that roam freely across the pastures of our planet. Here you will see how versatile wool is when used by textile manufacturers, fashion designers, crafts people and artists - colour, texture, design, functionality are all represented in our unique wool story.

But, design apart, really, it is the hidden story that makes our house special... the way wool works within the room and on the wearer. This is no ordinary fibre, this is a living, breathing 'smart' fibre that will improve the internal air you breathe, improve your sleep, improve your comfort and ensure your safety. Structured and resilient, wool in the home will last and last and still look good.

In fashion, you can be truly impressed and impressive. Your coat, hat, and everything from socks to scarves will let your body breathe and lend enduring quality and style to your life. There are no need for landfills with our wardrobe.

Life has many options.  
But we hope you agree that...  
**Wool is the answer.**  
No question.

# About the Campaign for Wool

The Campaign for Wool was launched in 2010 to educate consumers about the benefits of wool, promote wool-rich products to a national audience and help to support and grow the wool industry. Run by a coalition of industry groups convened by HRH The Prince of Wales, the Campaign works to engage consumers through exciting fashion, interiors, artisan and design lead activities centering around Wool Week each year.

The Campaign for Wool is jointly funded by some of the largest wool grower organisations in the world. Key nation partners include the British Wool Marketing Board, Australian Wool Innovation/The Woolmark Company, Cape Wools South Africa and Campaign for Wool New Zealand. All have shown incredible support and contributed to the global success of His Royal Highness's Campaign for Wool since its inception.

“Wool is a product that the most brilliant boffin in the most hi-tech laboratory could never create.”

woolbnb

# Welcome to the Wool BnB

## Who Lives in a house like this?

Our Wool bnb is designed to offer a bold, bright, creative interior. It oozes warmth and comfort and has lots of floor cushions and throws to allow complete relaxation on lazy days. It has room for friends to spread out across the floor too and there are lots of quirky textures and humorous elements - so our inhabitant likes fun and friendship... and good times! We like to think this is an ageless space - although perhaps... a younger... ageless inhabitant resides here

Whoever lives here, wants to sleep well, dress well, live well. They are happy to share and they like to think that they are providing an experience of their world and their love for wool! They have great taste and good values and... we like them. We hope you do too.

# brands a-z

The Campaign for Wool gratefully acknowledges the support of all the companies and brands that have loaned and donated product, given time and offered their support to create the Wool BnB. It is the conscientious endeavours of these people and their businesses that make wool the success story that it is today.

## Adam Carpets

Adam Carpets is a family business who has been manufacturing wool carpets in Kidderminster for over 80 years. During that time, the brand has become synonymous for its high quality products, its innovation and its vast colour bank. Adam Carpets are made in the brand's factory in Kidderminster.

 @adamcarpetsuk

 @AdamCarpets

## Adriana Homewares

Adriana Homewares is a Yorkshire based woven textiles brand creating statement fabrics for the home. Using 100% British Bluefaced Leicester wool to create its fabrics. Adriana Homewares ensures comfort and the longevity of every product.

## AEG

AEG specialises in innovative home appliances that bring superior form and function to your daily life.

The AEG brand offers a full range of products that continue the proud history of the brand. A track record which started with electric light bulbs evolved over the years to include everything from cars, trains, power tools and electric machines to instruments, nuclear power, motors, microelectronics and more. The brand is as attractive and relevant today as it was over 120 years ago.

As featured in the house: The AEG ProTex Plus dryer enables you to dry even the most delicate loads with the unique AbsoluteCare™ System and its Woolmark Blue certification. ProSteam makes use of steam technology to quickly, naturally and safely refresh and de-wrinkle all your clothes, even delicates and dry-clean-only garments.

## Allistair Covell

Allistair Covell is an award-winning contemporary surface designer with a background in fine art, printed textiles and fashion design. The surface patterns that feature heavily in Allistair's artwork are inspired by the natural and urban landscapes, architectural shapes and the effects of listening and responding to music.

 @allistaircovell

 @AllistairCovell

## All Fankled Up

At the helm of All Fankled Up is Mia Hardy. She is based in the coastal craft town of West Kilbride in North Ayrshire, Scotland. Mia's work is heavily influenced by her beautiful coastal surroundings and nautical experiences. Her aim is to create beautiful pieces with a practical use in the home.

## Alternative Flooring

Alternative Flooring is a UK brand creating and supplying innovative and unique carpets, stair runners and rugs for use across the most stylish locations.

Alternative flooring has partnered with Liberty London to create four designs in a contemporary range of colours, all woven on its state-of-the-art axminster looms in Salisbury. With many of the designs originally created by William Morris, it's the perfect blend of old and new.

## Exmoor Horn Wool

Exmoor Horn wool is produced by around 120 farmer members of the Exmoor Horn Sheep Breeders' Society, in flocks ranging in size from just a handful to over a thousand head. Some farming families have a history in the area going back to the thirteenth century, others arrived in the nineteenth century under the aegis of John Knight, and yet others are more recent arrivals, converts to the breed and its special qualities. In the past, some of the fleeces went to make green baize for billiard tables, others to make a special broad cloth.

## Redcliffs Slippers

Hand knitted slippers made by Laura Ellery in North London using natural yarns from Rapaki Mahana. The thinking behind the rubber is that people will be able to leave the house in their slippers. Redcliffs slippers are a house shoe inspired by adventure.

 @redcliffslippers

## Roger Oates

Roger Oates are designers and producers of smart, simple and classic pure wool Venetian flatweave rugs and runners with over 20 years of experience.

When Roger and Fay first discovered a nineteenth century flatweave fragment in the late 1980s, they set out to reintroduce and reinvent this flooring, woven in such a way as to be utterly authentic and true to the art of weaving, yet completely grounded in chic twenty-first century taste. Designs are originated and coloured by both Fay and Roger and the production process is run by craftsmen who finish by hand.

 @RogerOatesDesign

 @Roger\_OatesUK

## Mark Alexander at Romo

Mark Alexander offers exclusive and original textiles and wall coverings. Its design orientation is broadly eclectic in style and natural in quality. The designs are realised through close working relationships with traditional mills, incorporating specialist techniques used to accentuate the subtle luxury of natural yarns. Mark Alexander is a brand for interiors, with a discreetly elegant style.

 @markalexander\_ma

 @markalexanderfabrics

 @Mark\_Alexander

## Rowenna Mason

Rowenna Mason is an award-winning weaver, creating distinctive hand-woven products for contemporary interiors. She is currently based at the UK's leading business incubator for designer-makers, Cockpit Arts.

Rowenna's fabrics bring together the best of traditional technique, rural materials, innovative design and urban inspiration. Each piece incorporates colours, geometric patterns or structures from London's dynamic city environment. Her vibrant designs celebrate the heritage of British weaving through contemporary design. Rowenna takes a fluid and instinctive approach to weaving, pushing the boundaries of the craft to create bold patterns.

## Vanessa Abuthnott

Vanessa Abuthnott creates fresh and invigorating designs on fabric and wallpapers. The fabrics including 100% wool and 100% linen are all suitable for upholstery, loose covers, curtains, headboards and cushions. Ethically produced products and as environmentally aware as possible, Vanessa only uses organic cotton that, when blended with linen, creates our unique linen union.

## Vispring

Vispring is a maker of luxury beds founded in 1901 by an engineer called Jams Marshall. Born out of his desire to offer his wife the most precious gift of all – a perfect nights sleep, he created a mattress of pioneering design. The Vispring brand is available across 500 stockists in 35 countries across all five continents. It now brings a perfect nights sleep to more people than ever before, while still crafting beds that are handmade to order - just as they were in James Marshall's day.

Its beds combine technical prowess with a bespoke approach worthy of the finest tailoring. They are the product of a ceaseless quest for the ultimate in quality coupled with lasting respect for traditional workmanship.

## Wallace Sewell

Wallace Sewell is a UK based British textile design studio established by Harriet Wallace-Jones and Emma Sewell upon their graduation from The Royal College of Art in 1990. Working from London and Dorset, this progressive studio pioneers excellence and originality within its woven products.

Influenced by the Bauhaus and taking inspiration from paintings, they are known for their use of colour, structure and yarn, creating surprising geometric formats. Wallace Sewell strive to unite craft and manufacturing and are proud to have always manufactured in the UK, embracing the British Textile Industry for its wealth of expertise and production excellence.

## Z.Hinchliffe

Z.Hinchliffe are spinners of quality wool yarn, cashmere, lambs wool, angora, camel hair and vicuna. It is a family owned and run business, primarily situated in the heart of the Yorkshire Pennines. Since humble beginnings in 1766, when the Hinchliffe family started to trade, it has grown and expanded into the globally respected company that it is today.

The quality of its yarn stems from the raw materials used, which are the finest that can be obtained. Directly sourcing all materials without using merchants, guarantees consistency and therefore they have established a close working relationship with the world's best suppliers.
